

President (Prof. Liping Liu)

Dr. Liping LIU is professor at College of Fisheries and Life Science, Shanghai Ocean University, China, with about 20 years of experience on aquaculture. He has been an active researcher on international cooperation with over 20 partner institutes and NGOs in Asia, EU, USA and Africa. Dr. Liu was a member of Executive Advisory Council of APC World Aquaculture Society, and associate editor of Frontiers in Marine Science. He also acts as member of external Program Advisory Council for the AquaFish Innovation Lab funded by USAID. His major research interests are interaction of aquaculture and environment, and fish reproduction physiology. He has published over 70 articles and worked in aquaculture education for over 10 years. He has recently coordinated research projects between the Shanghai Ocean University and a range of partners in UK, South and Southeast Asia, with both EU FP7 and NSFC funding. Currently, he is PI for the project “China-ASEAN Joint Center for Research and Promotion of Marine Aquaculture Technology” which is funded by the China-ASEAN Marine time Silk Road Fund on behalf of Shanghai Ocean University.
